# 22.3 Jaggaer Release
## New Features Impacting End Users

| General Site Enhancement ([Click here for release notes]()) |
|---|
| ● N/A |

| eProcurement ([Click here for release notes]()) |
|---|
| ● Inactive Users are more visibly indicated on Requisitions and orders<br>● Supplier names are now being displayed on Purchase Orders<br>● General updates to User Experience<br>    ○ Those using the Item Not Found Form (INF) such as the Health Department (predominantly) no longer have access to viewing the form in the old pop up view-- the toggle to go back to the classic view is no longer an option; this has been communicated since 22.1 |

| Supplier Management ([Click here for release notes]()) |
|---|
| ● Supplier Profile - Supplier Name Format Extended to 150 Characters: The Supplier Name field will no longer be truncated at 100 characters when integrated into WD from MMP. |

| Sourcing |
|---|
| ● N/A |

| Contracts+ ([Click here for release notes]()) |
|---|
| ● Contacts+ User Interface Enhanced View<br>    ○ Users will no longer see the clock icon in the Start Date and End Date calendar selector buttons.<br>    ○ Users will now see highly visible check-in and check-out messages at the top of contract pages. These messages make it clear when a contract is checked out and which user has checked it out.<br>    ○ New elements will appear in the Contract Parties subsection of the Contract Header section to help remind users, especially infrequent users, of requirements related to First and Second parties. |
