Executive Summary

Aging, Disability & Veterans Services Division (ADVSD) Quality & Business Services (QBS, formerly Administrative Services) provides division-wide leadership, budget development, performance management, program evaluation, data analysis, administrative support, and workforce equity strategies to ensure fiscal responsibility, compliance, and participant-focused outcomes. QBS is also deeply engaged in driving department and countywide initiatives related to these topics to align efforts and leverage shared resources.

Program Summary

ISSUE: As the Area Agency on Aging for Multnomah County, ADVSD is responsible for developing a coordinated service system and ensuring equitable access for the county's 181,000 older adults, people with disabilities, and Veterans. QBS provides administrative support to the 29 programs across five program areas: Long Term Services and Supports, Community Services, Adult Protective Services, the Adult Care Home Program, and the Public Guardian/Conservator.

PROGRAM GOAL: The primary goal of QBS is to support the division's commitment to equity, quality, and accountability by providing strategic direction and critical infrastructure that guide quality improvement, budget oversight, and program evaluation.

PROGRAM ACTIVITY: QBS provides division-wide quality improvement support by leading quality improvement projects and convening the ADVSD Quality Council staffed by all ADVSD program areas and the DCHS Quality Improvement Center. Through ongoing budget development and monitoring, QBS supports fiscally responsible resource management that aligns to the DCHS North Star and ensures regulatory compliance. QBS program evaluation efforts center participant and community input to provide staff with insights to enhance equity in service delivery and participant outcomes. Members of QBS co-facilitate the DCHS Performance Management Council to ensure alignment with department initiatives, such as the DCHS Dashboard and workforce equity initiatives. QBS collaborates with the Enterprise and Data Analytics Team and Data Governance Program in IT to develop and implement a division-wide data strategy grounded in equity-driven data stewardship and analytics. QBS builds and maintains dozens of program-specific dashboards to support data-informed decisions in program management, funding allocation, and workforce development. QBS staff are members of the DCHS Data and Reporting Steering Committee that aligns the data governance practices of the department. Additional QBS activities include staff onboarding, coordination of travel and training, technology and IT support, monitoring policy compliance, and providing other critical administrative support to ADVSD's team of 446 FTE.

Significant Program Changes

Last Year this program was: FY 2021: 25027 ADVSD Administration

Program name updated to more accurately represent the services provided. Decrease in Internal Services by \$3.5 million - one-time-only funds initially allocated to move to a new leased building for ADVSD. Due to COVID-19 the decision was made not to move to a new building; later this also absorbed \$1.7 million in State Reductions (Bud Mod 010-21) for FY 2021.
