## Legal / Contractual Obligation

From the US Supreme Court to the Oregon State Revised Statutes, necessary health care for incarcerated individuals is a right because they have lost their freedom to obtain care on their own. Access to care, an evaluation by a health professional and a right to receive care that is ordered, is mandated by the 4th, 8th and 14th amendments. When serious health needs are not addressed by professionals, deliberate indifference to medical needs bring harm to individuals entrusted to our care. Corrections Health is bound by ethical standards to provide unbiased care to all individuals.

## Explanation of Revenues

As a result of the laws that govern the responsibilities of governmental agencies in the care of detained individuals, Corrections Health is unable to bill for services from Medicare. These rules and laws are under review and nationally to determine if additional revenue sources can be made available to jails. A co-pay system is in place that charges the inmate accounts for a nominal fee for evaluations, clinic visits and medications. Many treatments, screenings, diagnostic tests and communicable diseases testing are at no charge.
