

Multnomah County

Historic Columbia River Highway/Buxton Rd. Intersection Plan

EMCTC Briefing
June 14, 2021

Initial Improvements

- Added right turn lane from HCRH to Buxton, which reduced queues on Buxton
- Added green bike lane for visibility and safety

Outreach and Feedback

- **1/13/2021:** County briefing for BPCAC
- **2/18/2021:** County staff meeting with City of Troutdale staff and consultant
- **3/10/2021:** County/City response to BPCAC concerns
- **April:** Revised plan by consulting engineer
- **5/12/2021:** County update for BPCAC

Revised Plan

Close west ped xing to reduce conflicts with turning vehicles

Re-stripe Buxton south ped xing in dashed, continental style to increase visibility (same as HCRH xings)

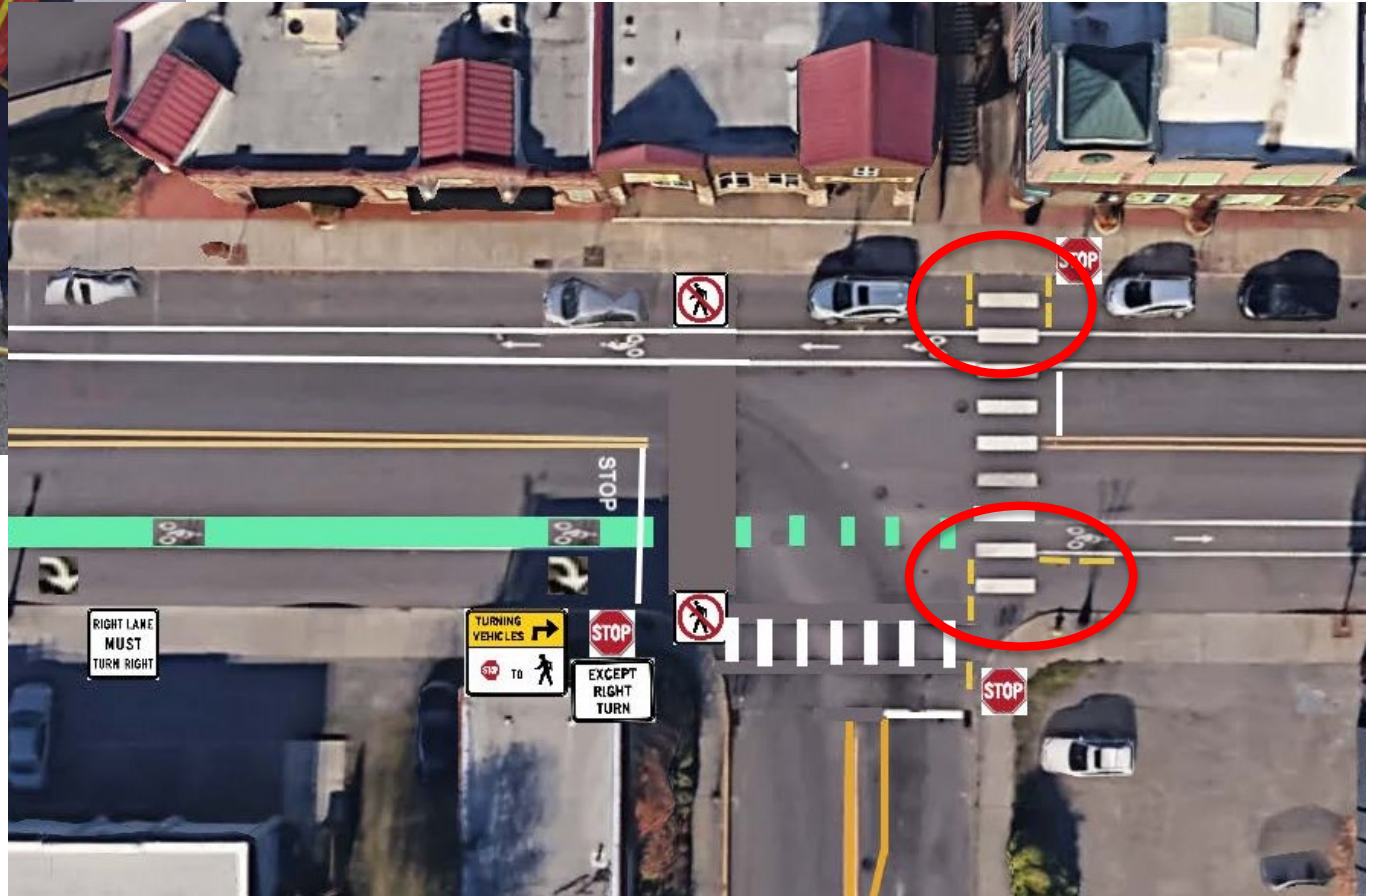

Improved Street Lighting

New LED street lights increase amount of light, making pedestrians more visible from a greater distance at night (installed last winter).

Install Tuff Curbs

Install protective tuff curbs (-- lines in drawing)

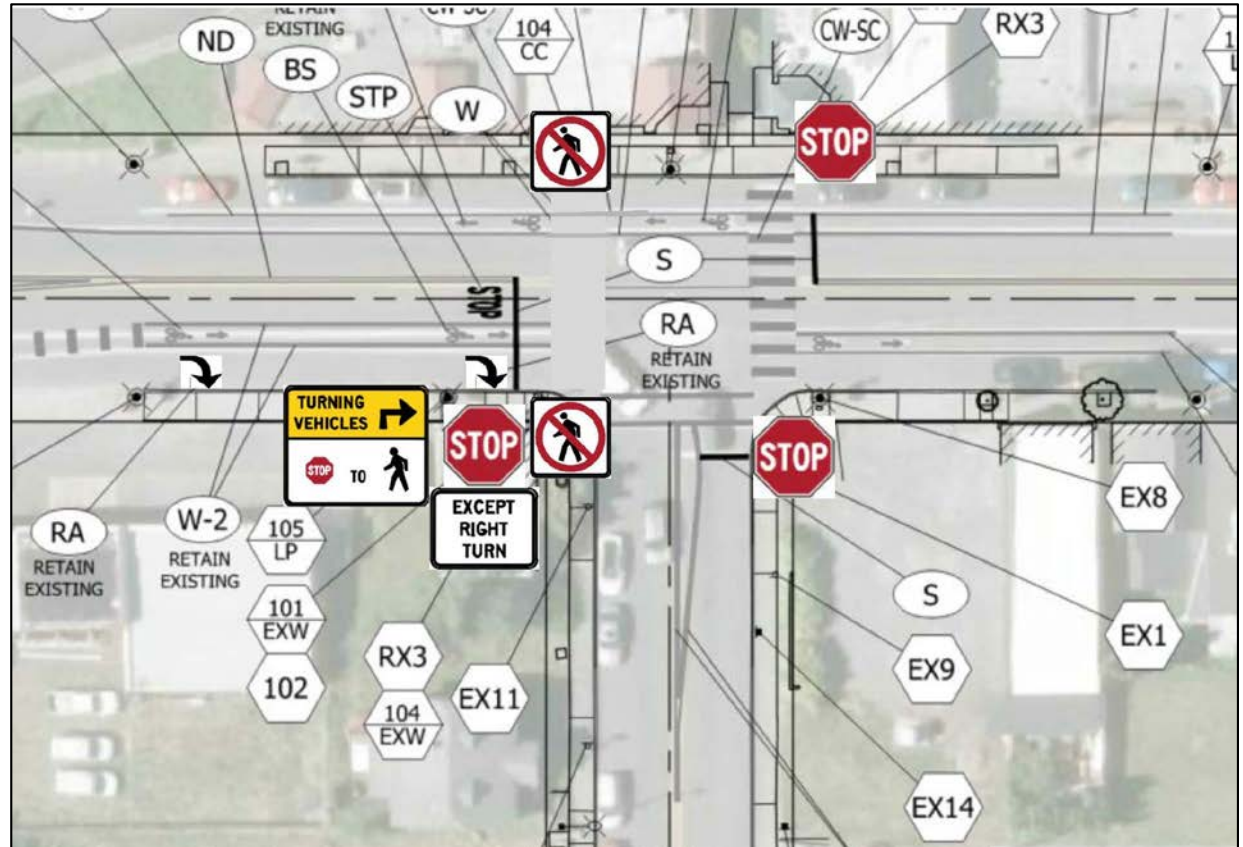

Questions and Discussion

Proposed Fix *

- All way stop except for right turn from HCRH to Buxton
- Close west crosswalk

* Drawing does not include April 2021 additions of tuff curb and continental-style xing across Buxton
