Multnomah County Department of Community Justice is seeking qualified candidates for a temporary paid internship position. This initiative encourages youth to meaningfully reflect on the harm caused by their criminal activity and the impact it had on their victims, the community, and their families, while working toward making things right and giving back to the community in a positive way. The program also teaches youth valuable job skills that will prepare them for employment in their own community. Each day youth are able to earn incentive money by working in organic vegetable gardens, and participating in lessons and curriculum materials designed to teach youth about the impact of their actions, chart a course for making things right, and give youth tools to make better choices in the future. Hands of Wonder is an opportunity to leave the system with an improved attitude, sense of belonging, and strengthened social bonds that serve as a new foundation for youth to be a healthy member of our communities.
