

Now you need to come up with a budget.

In the first column, brainstorm all the items you will need to make your project happen. In the second column, consider how much each item will cost. Think creatively in the third column about other places that might donate this item to your project's cause. Finally, decide how much of your grant money would be spent on this each item in the last column. *The maximum grant is \$1000. The first row below shows an example.*

What you will need	How much it will cost	Other places that might donate this item	Amount of grant money that will be spent on this item (cost – donation).
<i>Art Supplies</i>	\$150	(\$37.50) <i>Some art stores may offer a discount of at least 20%.</i>	\$112.50 <i>[\$150 - \$37.50 = 112.50]</i>
