NOTES **OVERALL, THE AMOUNTS FOR EACH CATEGORY WERE OBTAINED BY DEVELOPING PERCENTAGES FROM THE DOR (S.A.L.) REPORT OF ASSESSED VALUES AND EXTENDING THESE PERCENTAGES AGAINST THE TOTAL CERTIFIED TAXABLE VALUE.**

- *** A. DOR assessed industrial was not shown separately until 1990. Prior to that it was included with the industrial total. So, the Commercial-Industrial % change number for 1990 reflects that change in reporting. If DOR assessed Industrial for 1990 was added to the A & T assessed Commercial-Industrial, the the increase would be 6.8% over 1989. THE SAME SITUATION APPLIES IN 1992 TO 1993.
- *** B. Ratio Codes for Multi-family housing were changed following a change in valuation responsibilities in 1990. This causes the amounts for multi-family housing and commercial in the SAL report to be different from this report for 1990. The total value is the same.
- *** C. Total Value of this report takes into account Veterans' exemptions, other exemptions, etc. These must be considered in setting rates and making projections.
- *** D. Machinery & Equipment for Industrial and Commercial properties were separated out to new accounts in 2012/13.
