Multnomah Other Corrected Claims Cutoff Date

Multnomah Other will be adding a claim filing cutoff date for corrected claims. PH Tech will be denying corrected claims received after the twice annual cutoff dates. Any corrected claims inadvertently approved will reprocessed to deny as part of the claim reconciliation process. This adjustment is a result of changes made by Multnomah Other funders.

- DUII Claims Date of Service 1/1-6/30: within 30 days of the original adjudication date **OR** 8/15, whichever comes first.
- DUII Claims Date of Service 7/1-12/31: within 30 days of the original adjudication date **OR** 2/15, whichever comes first.

- Non-DUII Claims Date of Service 1/1-6/30: within 45 days of the original adjudication date **OR** 8/15, whichever comes first.
- Non-DUII Claims Date of Service 7/1-12/31: within 45 days of the original adjudication date **OR** 2/15, whichever comes first.

Please ensure that June and December claims are submitted as quickly as possible and any denials are quickly corrected. Refer to the Correct Claims Cutoff Date memo for additional information.

Secondary Payer

Multnomah Other will be changing the process for submitting claims when Multnomah Other is the secondary payer. This change is a result of requirements being made from Multnomah Other funders. The updated secondary payer claim submission process will be reviewed and made available during the June 2021 Multnomah Other Billing Meeting. Multnomah Other does not anticipate that this change will result in a large increase administrative work.
