You should carefully consider the investment objectives, risks, charges and expenses of The Hartford's group variable annuities and their underlying funds before investing. This and other information can be found in the prospectus or disclosure documents, where applicable. To obtain the applicable disclosure documents or underlying fund prospectuses call 1-800-255-2464. Read them carefully before you invest or send money.

This table shows only the asset-based fees, charges and expenses associated with the investment choices of the group variable annuity contract. Please refer to the product prospectus or disclosure documents, as applicable, for information on other fees and charges that may apply to your plan's contract such as a contingent deferred sales charge, annual maintenance fee, and other fees or charges, if applicable.

† These are the Total Annual Fund Operating Expenses for each underlying fund as of its year-end. Total Annual Fund Operating Expenses are the expenses that are deducted from fund assets, including management fees, Rule 12b-1 distribution and/or service fees, and other expenses. Actual fees and expenses for the underlying funds vary daily. As a result, the fees and expenses for any given day may be greater or less than the Total Annual Fund Operating Expenses listed above in the table. More detail concerning each underlying fund's fees and expenses is contained in the prospectus for each fund.

†† The Hartford deducts the mortality, expense risk and administrative charge from the assets of the Separate Account on a daily basis at the annual rate shown above. If the mortality, expense risk and administrative charge under a Contract is insufficient to cover actual costs incurred by us, we will bear the loss. If the mortality, expense risk and administrative charge exceeds these costs, we will keep the excess as profit. We may use these profits, as well as fees and payments received from the fund families, for any proper corporate purpose, including, among other things, payment of sales expenses, including our expenses of paying compensation to broker-dealers, financial institutions and other persons for selling the Contracts. We expect to make a profit from the mortality, expense risk and administrative charge.
