Inmate Distribution by Type of Bed Occupancy, February 2008 (Total inmates housed=3890)

¹ This data sheet is provided mainly to meet the reporting requirements as specified in one of the FY 2008 Budget Notes.

² This represents 95.5% of total County operational jail bed capacity (N=1633). Capacity at 97% or higher is considered a Population Emergency. In-transit bookings were excluded from the total bed use calculation.

³ This number does not include 20 non-exclusive USM beds that were reported in other categories.

⁴ The number of billed USM beds is a result of negotiation and data reconciliation between the County and US Marshal's office. It may not be the same number as pulled out from the DSS-J system.

⁵ FBWR caseload includes new admissions, new terminations, or cases admitted previously but still active by the end of month.

⁶ DSSJ and OJIN data were used to calculate CANS FTA outcomes. Persons in custody at time of hearing were excluded.

⁷ Beds used for SB1145 (based on primary offenses) and BM11 (based on primary offenses) were counted first regardless other types of holding an inmate might have.
