As a migrant and a former ESL student, I recognize the challenges our students face entering a country where they are unable to communicate. When a child's culture and language are misunderstood, it negatively impacts their ability to learn and grow.

I am running for school board because our students are consistently showing lower and lower proficiency in reading. **How can we expect our increasingly diverse community to thrive in a public education system where less than 50% of our children are meeting benchmark standards?** Unless we can improve our public schools, we will not be able to deliver on the promise of prosperity and adventure that immigrants like me come to this country for.

My experience as a mother and teacher have prepared me to work with students of all backgrounds and help them achieve their potential. As your representative on the school board, I will have the opportunity to pass along the lessons I have learned to others, and to motivate our students to persevere in the face of adversity - just as I did when I first came to this country.

There has never been a greater chance for us to change our education system than today. This pandemic has been difficult for all of us, but it has exacerbated the challenges of first-generation Americans. As we transition back to the classroom, we must pay special attention to students' mental health and well-being - students cannot grow without a feeling of security and support. As part of the school board, I will work with my colleagues to ensure that students are given the appropriate resources, and that parent's concerns are addressed respectfully.
