OPTIONAL INFORMATION

During my term as Board Director I have worked to improve water quality and water pressure for those of us in Sub-District #3. I am happy to say that our sub-district will be served by a new pump station and resevoir with construction beginning in 2013. As a Board Member I have shared in keeping our rates to a minimum while ensuring the quality and quantity of water provided our customers is of the highest possible standard. As your board representative, I voted to work with a nearby water district to drill new wells and to continue seeking avenues to ensure we further plan for future water resources to allow us to continue to provide the excellent quality of water that our patrons have come to expect and rely upon.
